

OTHER PROVISIONS RELATING TO MANUFACTURERS OF PROCESSED TOBACCO

§ 40.531 Alternate methods or procedures.

(a) *General.* A manufacturer of processed tobacco, on specific approval by the appropriate TTB officer as provided in this section, may use an alternate method or procedure in lieu of a method or procedure specifically prescribed in this subpart. The appropriate TTB officer may approve an alternate method or procedure, subject to stated conditions, when the appropriate TTB officer finds that—

(1) Good cause has been shown for the use of the alternate method or procedure;

(2) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure, and

(3) The alternate method or procedure will not be contrary to any provision of law, and will not result in an increase in cost to the Government or hinder the effective administration of this subpart.

(b) *Application.* A manufacturer of processed tobacco who desires to employ an alternate method or procedure must submit a written application to the appropriate TTB officer. The application shall specifically describe the proposed alternate method or procedure, and shall set forth the reasons therefor. An alternate method or procedure shall not be employed until the application has been approved by the appropriate TTB officer. The manufacturer shall, during the period of authorization of an alternate method or procedure, comply with the terms of the approved application. Authorization for any alternate method or procedure may be withdrawn whenever, in the judgment of the appropriate TTB officer, the effective administration of this part is hindered. Any authorization of the appropriate TTB officer under this section shall be retained as part of the manufacturer's records in accordance with this subpart.

§ 40.532 Emergency variations from requirements.

The appropriate TTB officer may approve methods of operation other than as specified in this subpart, where it is determined that an emergency exists and the proposed variations from the specified requirements are necessary, and provided that the proposed variations will not hinder the effective administration of this subpart and will not be contrary to any provision of law. Variations from requirements granted under this section are conditioned on compliance with the procedures, conditions, and limitations set forth in the approval of the application. Failure to comply in good faith with such procedures, conditions, and limitations will automatically terminate the authority for such variations, and the manufacturer of processed tobacco thereupon must fully comply with the prescribed requirements of the regulations from which the variations were authorized. Authority for any variation may be withdrawn whenever in the judgment of the appropriate TTB officer the effective administration of this subpart is hindered by the continuation of such variation. Where a manufacturer desires to employ such variation, the manufacturer must submit a written application to do so to the appropriate TTB officer. The application must describe the proposed variations and set forth the reasons therefor. Variations may not be employed until the application has been approved.
